

**AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims**

1. (currently amended) A surface protective sheet having an anti-ultraviolet layer on at least one surface of a plastic film, wherein the anti-ultraviolet layer comprises at least an ionizing radiation curable resin composition, an ultraviolet absorber, spherical microparticles having a mean particle diameter of 1 to 20  $\mu\text{m}$  and an organopolysiloxane, the microparticles are contained in an amount of 0.4 to 3% by weight in the anti-ultraviolet layer when the layer has been cured, the ultraviolet absorber is an absorber having a formula weight of 200 to 400, the content of the ultraviolet absorber is 5 to 15 parts by weight ~~based on~~ with respect to 100 parts by weight of the ionizing radiation curable resin composition in the anti-ultraviolet layer, the thickness of the anti-ultraviolet layer is 66.6 to 80% of the mean particle diameter of the microparticles, and the anti-ultraviolet layer contains 0.01 to 1% by weight of the organopolysiloxane when the layer has been cured.

Claim 2 - 7 (canceled)

8. (previously presented): The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes benzophenone based compounds.

Claims 9 - 10 (canceled)

11. (previously presented): The surface protective sheet according to claim 1, wherein the spherical microparticles include silica.

Claims 12 - 13 (canceled)

14. (previously presented): The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes benzotriazole based compounds.

15 - 16 (canceled)
